

**Breage Parish's Landmark Tree, a *Tilia cordata* -small leaved lime donated by The Forest for Cornwall, was planted on Monday 29 November during National Tree Week that runs from Saturday 27 November to Sunday 5 December in the Breage Parish Council Cemetery, a Cemetery for the whole Parish, to provide a poignantly touching link between the living and the departed. There is full viewing access to all in the Parish.**

**Planting a tree or trees to mark an event or celebrate a person has been a long tradition. It is hoped this offer will help communities celebrate what or who is important to them through planting a tree and capturing those stories for the future and sharing those stories with us. It is hoped a 'community of trees' will be created across the length and breadth of Cornwall.**
